Projects

Eggsplosion

April 2022 - September 2023
Eggsplosion is a twin-stick arena brawler. Originally developed during my studies, brought to Steam under my lead in the summer that followed.

Languages

Dutch Native	Engels Fluent
------------------------	-------------------------

Summary

I enjoy collaborating on meaningful ideas and solutions. I'm motivated by challenges that I can tackle creatively. In addition, I enjoy programming both professionally and in my free time, often working on a game, a website, or small projects on my raspberry pi.

I'm also a real people person; I value a friendly, collaborative environment and believe that creating a positive and approachable atmosphere always benefits the project.
